The ACE School of Character Quality Mark draws on the world-leading research of the Jubilee Centre for Character and Virtues (University of Birmingham) and provides a vital framework for schools seeking to embed a sustainable approach to character education.

One of the real strengths of the framework is its focus on 3 clear zones of development: character caught, character taught and character sought.

In this webinar we'll be exploring character taught and how schools can develop a coherent, character-focused curriculum strategy.

Our panelists will share their experiences in planning, developing and implementing a highly successful character curriculum. All are experienced leaders who have been instrumental in helping their schools achieve the ACE School of Character Quality Mark Plus.
